- i. The Murang'a County Public Service Board was first constituted on 16th August, 2013. The Board in the course of executing its mandate has maintained a High standard of professional ethics; utilized the resources available to the board with efficiency, effectiveness, transparency and accountability. The Board has also endeavoured to have a good working relationship with two arms of Government.

In this calendar year, 2022, the Board has undertaken the following:

1. **Observance of fair competition of appointment and promotions:**

In doing this the Board did the following:

- i. Advertised the vacant posts in the print media and county website

- iii. Carried out interviews competitively;
- iv. Made out appointments according to merit and in line with provisions of other relevant Laws;

- v. Promoted officers in accordance with performance and schemes of service

(List of appointments and promotions is attached as appendixes)

2. Observation of high standards of professional ethics:

The Board got trained on professional ethics and corporate governance matters and applied the same in the recruitment process and in the achievement of its' other objectives.

3. Involvement of the people in the process of policy making:

In doing this the Board did the following:

- i. Developed draft policies in the following areas awaiting public participation:
 - a) Casuals.
 - b) Training
 - c) Discipline
 - d) Internship
 - e) Performance Management
 - f) Recruitment and Selection

4. Affording adequate and equal opportunities for appointment, training and advancement at all levels at the public service.

In achieving this, the PSB recruited people in various vacant posts both men and women as per appendix 1 and 2.

The Board also evaluated various reports of the County Human Resource Advisory Committee and promoted various persons as shown on appendix 1.

3.0 Evaluation to the extent to which the values have been complied with:

As a way of evaluating the extent to which the values have been complied with, the Board has done the following:

- i. The board requests all candidates to comply with requirements of chapter 6 of the constitution.
- ii. Authenticated certificated for employees and candidates who appeared for interview. This exercise is an ongoing exercise.

4.0 Upcoming and On-going Programmes

The Board intends to undertake the following:

5.0 Impediments faced by the Board in the Promotion of the National Values and Principles of Governance and Public Service.

In the performance of its function of promotion of national values and principles of governance in the public service, the board has experienced the following challenges:

5.1 Gender Balance

The Board continues to face challenges in attaining gender balance. The current workforce however is skewed towards the female gender.

5.2 Residence by Marriage Vis-A-Vis Birth

Capturing data of applicants' especially female applicants during data entry and short listing per Sub- County and wards creates confusion. At short listing stage, a candidate's identification documents may indicate that she is from a particular County, whereas at the time of interview she clarifies that she is from a different County. Such claims require proof such as Affidavit of Marriage Certificate which candidates normally lack.

Such confusion affects the allocation of appointments and balancing in the wards and Sub counties.

5.3 Regional Balancing

Whereas the board would want to uphold the requirement of regional balancing within the Country, there have been challenges when it comes to meeting minimum requirements as per the advertised vacancies across the county.

Sometimes the Board finds out that during the shortlisting, there are no applicants from some regions in the Country.

The board supplements advert on print media with posters within the County so as to reach a wider audience.

5.4 Diverse Communities

Murang'a County is largely not cosmopolitan. People from other ethnic communities in the county mostly as public servants, students or members of the minority business community and applicants for various vacancies from diverse communities are few.

The law requires that the Dominant Ethnic Group should be above 70 percent and non-Dominant Ethnic Groups be at least 30 per cent according to section 55(1) (e) of the County Governments Act, No.17 of 2012. However, certain vacancies do not attract applicants from outside the Dominant Ethnic Group. The Board has strived to ensure this through advertisements that encourage persons from other communities apply by indicating at all times that Murang'a County is an equal opportunity employer.

5.5 Political Environment

The Board recognizes the fact that it operates within a political environment amongst others. This therefore can affect certain aspects of recruitments and selection exercise and by extension the board's activities. The board however strives to remain non-political while at the same time encouraging consultation and consensus building in the discharge of its duties and delivering on its mandate.

5.6 Inadequate Infrastructure

Inadequate infrastructure is still a challenge in Murang'a County as a whole and therefore by extension affects the Board's intention to attract competitive candidates and qualified personnel in its Public Service. Some of the neighboring Counties are better off when it comes to infrastructure development thereby attracting applicants due to the same. The Board has noted that even some successful candidates are still compelled to seek residence in other Counties due to this challenge particularly when it comes to educational institutions, residential houses, ICT, medical facilities and road networks.

5.7 Persons with Disability

Advertised positions have so far attracted few people living with disabilities. The Board has however gone out of its way to reach out to Persons Living with Disability.

5.8 Inadequate Funding

This has posed a challenge in the efficient delivery of services.

6.0 Recommendations to be implemented in the Promotion of Values and Principles

The board recommends the following be applied in order to make the national values and principles of governance and of public service be adhered to and assist in having an efficient and effective County Public Service.

- Adequate budget provision be allocated to facilitate promotion of values and principles in public service.

7.0 Conclusion

The Board would wish to conclude by assuring all stakeholders that it is committed to ensuring that the National Values and Principles of Governance in the Public Service are adhered to: -

- Formulating effective measures to promote the values and principles.
- Undertaking a vigorous campaign to promote them among the public officers and the general public.
